

Quality Time Games

Reference List

"After discovering the Quality Time Games Fundraisers at a teacher's conference, I brought that possibility back to my school. Many of the games that are offered are used in my classroom, so this was a great opportunity to offer it to the students at my school. I have coordinated the Quality Time Fundraiser for the last two years in my school and both years were extremely successful. We held a family game night, where families were able to try out the games before purchasing them. The ordering process is straightforward and the Representative made it easy to get the games here in time for the December holidays. We can't wait until next year!" - Hope Massar, Gifted Resource Teacher

"Thanks so much for the games! I got them distributed today and have already heard great things about them! It was a pleasure having you all come out to our Math Night. We're thinking we'd like to schedule one for November next year if you're available." - Dana Jean, PTSO President

"I am the leader of a homeschool group that has 45 families. We met Quality Time Games at a homeschool convention. We were so impressed with the way they work worked with children that we wanted to host a gaming event for our group. Before the event they sent catalogs for our families to peruse. That was great so that when they came to our game day we knew which games we were interested in trying. For the event they brought many of their games for us all to try. The hands-on trial was a great way to decide if we wanted to buy the games they offered. Our kids enjoyed themselves immensely. The games were very good. Many of them are educational and can be used to enhance our studies and yet at the same time they are fun for the entire family. The Quality Time Representative was very patient and with the kids. They sat and played with the kids and took time to teach the kids how to play the games and answered all of our parents' questions. Our parents ordered many of their games and have been very pleased with them. We enjoyed them so much that we will have them back again annually. That way all of our families will have the opportunity to order the games that they would like and we will be able to see the new stuff as well. We not only enjoyed the games and the event, but had the added bonus of earning a kick back for our group. At first we thought it would be small and didn't even really count it as the motivation for doing the event, but in the end it was a substantial cash kick back. We were pleased with our experience all around and we definitely recommend Quality Time Resources to other groups." – Tammy Ayers, Indigo Home Learners Advisor

"As a teacher in a school that was just added to our district, I knew there were no funds to even begin a fundraiser. However, when I was attending a Gifted in-service, I came across a representative from Quality Time Games. He did an excellent job explaining how it works, and I thought I would take the chance. We held our first game night in the Spring, and the turnout was good. The kids and their parents were extremely involved in playing the games. In fact, the Quality Time Games representative awarded a game to one of our students who was ecstatic about several of the games that she had the opportunity to participate in. He delivered the game of her choice and awarded her with a certificate that named her 'the most enthusiastic player of the night'. I can't tell you how elated she was to receive such a wonderful gift. Overall, I had a wonderful experience dealing with Quality Time Games for the first time, and I plan on hosting another fundraising event with Quality Time Games this Fall. You can't go wrong with this fundraiser!" - Janna Newman, Gifted Teacher, Circle Cross Ranch K-8

"Thank you Quality Time Games for our second of what we hope will be an annual event. We have now posted your catalog online at our website so families who couldn't make it can review and become familiar with your products. We're all adding to our portfolio of games at home. The games truly are quality games and the whole family enjoys them. The highlight for our group is the actual group play where families can try out games with your assistance. You are all so patient and helpful. We received our shipment promptly and were so pleased to have received a bonus check for our fundraising project. Thanks again. I look forward to seeing you again next year (or sooner)!" - Dana Chiordi, Indigo Home Learners
